- Chapter Quests, Dungeons, and Dungeons Chapter Quests take place in specific areas in the Lands Between. In order to complete the Chapter Quest, you have to defeat the boss monsters in a dungeon located in the same area. For example, you can collect and use the three warrior skills necessary to enter the dungeon and complete the Chapter Quest. Missions assigned to the World Core play a great role in shaping the world of The Elden Ring. When completed, the missions grant the player special benefits, such as spreading the system of cleansing, or creating a new nation. During a large-scale battle, the skills of the characters will greatly influence the outcome. You can activate your characters' skills by spending the Skill Points earned during battles. Once the skills reach their limit, the character will be able to use a special skill depending on the situation. Chapter Quests become available as you advance in levels and reach a new position in the rankings. Chapter Quests provide you with experience, allowing you to level up your character and gain more Skill Points. - Extended World Map The world map is very large. You can directly travel to other areas of the world from the Travel Tome. You can also see unique game elements that will appear on the world map, depending on the areas you are visiting. You can start a quest by choosing one of the missions located on the world map, including the new Missions included in the game. - Global Exploration with a Single Game As you visit different areas of the world, through Travel Tome, you will expand your knowledge of the world and forge relationships with the people that inhabit this world. You will collect various materials, such as ores, and take part in the many events that occur. If you complete one of the missions that appears on the world map, it will gradually expand. Every time you progress through the story, you can check the new missions that appear on the world map. - Living Together with Others: Sync and Async You will be able to play with others anywhere, anytime through the online mode. During that process, you can simultaneously move to the same spot while chatting with friends.
