The Caddx Software DI900 is a router/controller program that can be used with DL200 and DL900 system. Caddx DI900 Software Download Hello Caddx, i've read that you have released a new Caddx version. Can you please inform us about the key feature for this di900 version? Caddx, network, Caddx DI900 - Ekram Hello Caddx, i've read that you have released a new Caddx version. Can you please inform us about the key feature for this di900 version? Di @Robin. I have just been on the phone with Caddx on behalf of the DH/Kalk WWP. I'm trying to use a [non-supported] DI900 and an application of the computerized ASSOS-system. We describe a method for quantitative evaluation of the EEG by a computer-analytical program in children with conduct disorder: The ASSOS software (ASSOSystem) is designed to visualize and compare areas of power spectra (alpha, beta, gamma, delta), frequency analysis, and spectral peak frequency of the background activity and sleep of ADHD, autism and those with conduct disorder patients. We used ASSOSystem in ten ADHD children, eight autistic children, ten drug-free conduct disorder children and ten healthy control children. The ADHD children showed diffuse power spectra with a high frequency peak and a lowered peak frequency compared to the normal children. The autistic children showed a low frequency peak and a flat peak frequency. The conduct disorder children showed an almost flat peak frequency and a bimodal peak distribution. The EEG of the drug-free conduct disorder children was significantly different from healthy control children. The ASSOS-system is a useful tool for simultaneous, computer-based analysis of the EEG. $e t l = w + a . C a l c u l a t e t h e r e m a i n d e r w h e n i s d i v i d e d$
