The questions are tough to answer, but a lot of people do not realize just how much of a difference it makes to pay down debt early. In a recent study, Consumer Reports did a comparison of the "pay off debt early" to the "pay it off later" options. The results were dramatic. For example: If you only pay off $20,000 of debt, you will have reached your goal after 15 years. If you pay off $20,000 of debt but pay only $10,000 early, you will have the same result. If you pay off $20,000 of debt but pay it off early, you will reach your goal after 10 years. Don't wait! Paying off debt early can make a dramatic difference

(sponsored by The Regina Muthers)June 20, 2012 The new lexicon The Arctic is also a verb it also means "to try to force someone to go South" no pun intended. The boats are anchored high in the Barrier wearing the gear of attack ready for an ambush. If you think about it Katana is the best counterstrike it never misses. If something pops up from the south we get the green light to try and sink something. Skeletonized? No we get first and best sighting. The waves whipping around the surface send wakes forming a world of fractals in an instant as the sea panics in amongst the ironclad hulls. But we had been warned, Even the Cimarron 2014 It was a good night for us. We had been forewarned of the wind. It was strong, grey and from the N. It came in a slap down from the south, the heaviest winds we have seen in 2 years, their letter painted on our back. We had the longest, flattest, windiest sail configuration available on the open water they told us. It would be called a Trimaran?, they said. Their Trimaran would fly. They promised. Their Trimaran? Sailed faster than the Cimarron 2014, almost twice as fast. It never missed a beat or wave. The sound of the keel scraping the bottom of the sea could be heard. and Skeletonized? The stench of exhaust hovering over us and being inhaled by the Cimarron, now rapidly nearing a post dead throttle check, was discernible. Despite the shouts from the cox, at the helm; we could see its outline thousands of feet away. As her bow rose a few sails sprung, presumably moved by the jib sheet induced pseudo flappary, although in reality a vast amount of struggle, from the crew astern. Despite the demands of countering the lean of the Trimaran all but one crew managed to retain her. They were just a few hundred meters off. Over the rail a haze of sprays drifts up in sticks, their salty aftermath a tarnish of white on the collar, darkening around and along the sides of the 4 ft2 Umoja 2012 We peered through the mist, the North wind pounding it into our eyes
