We are a group of creators and people who are mad at life. We thought that we could make it better by creating something weird, colorful and fun and here you have it: Jump! We have created this game to bring people down to earth and show them that they can have a brain and fun at the same time. We are creating this game for all ages and suggestions from you, the players, will be taken into account. The Game is an escape game, where you have to find a way to your room in a house. The house is in a forest, so we are making this Game in a forest, but it might look like a normal house when you have no map. We made a map and a map for the map so you won't have any trouble finding your way there. We also have a little character inside the house: Neko. When you start playing we will ask you to guess Neko's name. When you guess it right you will get the full map so you can start solving the puzzles. This Game is in Japanese, so if you want to play this Game we will be very happy to show you how to play. Features It is an escape game, so you have to find your way to your room. The Game is an interactive story. So you have to solve puzzles, find clues, solve mini-games, etc. All puzzles have hints in the game (which you will find after you have found the first hint) and the last puzzle has a little story you can find by reading the text. The Game has a character: Neko. She will talk to you and sometimes give you hints. There is a map with all the rooms and the wallpapers. You will start the game in a forest, but when you find your way back to the map you will see that this isn't a forest, but a house. The woods look like the bedroom of the house. You can only play one character per player. The game has music and theres a lot of voice acting. You can delete the game and still have all the pictures, music and the player name saved. The Game is customizable. You can change the name and the character in the game. You can change the looks of the User Interface. You can change the Music and the voice acting. You can change the notes in the game. You can play with co-op (one player can use two characters). You can

Darkwood: Artbook 2018 EXPRESS DESIGNED: Illustration
Darkwood began in late 2017 with the idea of reimagining the relationship between the artist and the viewer with a new platform for illustration. After years of working in the graphic arts, the graphic designer and illustrator created one of the first commercially available online platform that encourages the viewer to get involved with the work. The website allowed the audience to upload their own craft to the scene, story creation is an intelligent platform that was designed to run with the audiences' creativity and make it an interactive experience. Every stick we reference is an exhibition. Of course, the work is not only collaborative but also very experimental. For it is in the shadows that the heart of our vision lives. You, yourself, can bring a universe into existence, but only if it belongs to you

- Timelapse projection - 2018 In November 2018, we will launch our first project, Star of Romania. For you to create your universe. Visitors will be able to upload a personal scene and add movement to our website with simply a click. The event is already in the making. Countdown to its launch: Start: 10/11/2018 at 00:00 UTC - June 17, 2018 End: June 20, 2018 at 00:00 UTC Content: 1 scene, 1 day. Please Note Registration is limited to 1000 active users (to avoid overcrowding the server). The server receives images in sequence and the projectos have a default lifespan. Instructions and the user interface will be presented to you on the registration page, but you can of course see it beforehand.

PROJECTS PRIVATE SEPARATION: ART PORTRAIT - 2018 What kind of concept would you like to see more often presented in the world? leêşenù: The classic artist who hides his painting from the viewer. There is no in-between for creating a universe. With the next generation of web streaming platforms the concept of separation is becoming a thing of the past. leêşenù is part of a new wave of artists and illustrators who have decided to put themselves on display on the internet. From July 5, 2018 on, the Portuguese artist will do a solo project

Trivia Tricks is a trivia game developed by a small team of developers with a love of trivia, and a desire to create something amazing. Our first game, Romramble, launched on the App Store on April 17th 2015, generating an excellent response from the community and ultimately securing funding through the Steam Early Access program. As part of this success, we approached the Android platform with the goal of building something similar, but on a more expansive scale, and with greater play features. "Excellent trivia game with a good variety of games. The categories are enough to have fun, and I like the way the bonuses are done. The voice acting, although a bit odd at times, is enjoyable!" - 7.5/10 playhobby.com "This is a very fun and entertaining trivia game. The categories are varied, the graphics are smooth and the game is really quick to learn and play. Overall, an enjoyable game!" - 8.5/10 Apptamin.com "A nice trivia game with lots of categories and options. Highly recommend for all trivia lovers! :)" - 9/10 0appszone.com "I really enjoyed playing this game. Some categories are very fun and others are a bit challenging but that's ok. Overall, this is a good trivia game." - 8.5/10 0appszone.com "Trivia Tricks is a fun trivia puzzle game. The game could use more options for customizing however. The controls could use some polishing and the player can't see the overall score, which means you don't always know where you stand. Nonetheless, I enjoyed playing this game" - 4.5/5 Apple'n'Apps "Tons of questions for all knowledge levels. Top notch game, even if it's a little tricky at times due to the occasional bug." - 5/5 AppPicker.kr "Great game, though I think there should be more custom options like giving you the questions you missed." - 6.5/10 AppRunguru Are you ready to amaze people? Download Trivia Tricks now and start playing! Check out the official Trivia Tricks website for more information and the latest news: PC Game PC Game is the first part of the Windows Phone series.
