03 Mar 2010 03:51:38 +0000 Test Playtest of the _DWARF MARKET_, a spiritual successor to the _Legend_ al _Elden Ring_, has begun. The lore-creation team is currently hard at work writing and creating content. To a game? Not so much! Several months of testing will be needed by our Playtest to determine whether the game is playable, or whether it needs significant changes before the developers can bring the game to the development stage. The first of the two tests is scheduled from April 25 to May 10, 2010. In the process of testing the following aspects will be studied:

- Story progression.
- Any issues with the visual quality of the game.
- Observing the reaction of the players to the content, encounter systems, action, and the overall game flow of the game.
- Determining how much resource (manpower, stamina, equipment, and the like) to consume by both players and non-player characters.
- The degree of familiarity of the players to the setting of the lore.
