Game play Fantasy Action RPGs are very different from each other. The game play is also different from the fantasy RPGs released in the past. • The

core action of the game lies in the main character. In our game, in addition to the standard combination attack, each main character has a first, second, third, and fourth action in addition to the main attack. The more you use the main character, the more combat skills you will be able to use.

- Artistically realistic combat system

Combat in our game is articulated with a combination of an action that comes from the game engine and art creation. Our combat system makes a complete combination attack by feeling the completeness of the character you are controlling, not like how all of your attacks are added together.

- Enjoyable Online Game System

Our game also supports an online system that allows you to enjoy the game when you are not in front of your screen with others. The servers of the game are shared by a few people. We are preparing the server that can be played seamlessly with others and the content that can be played together with others. We plan on delivering the servers in about a month, but they will not be opened for registration until the release of the full version.

- Fantastic Ride into a Fantasy World With Unlimited Possibilities

In the game, you will fight monsters and use various weapons, and you will advance through the game

in a unique story featuring a variety of other characters. Regardless of your level of experience, you can enjoy the game as you go. • A Huge Variety of Adventure The adventure in the Lands Between is going to be a variety of places such as the medieval field, the ancient ruins, and the crowded city. In addition to the non-game content that you can enjoy, the game features a variety of PvP (Player vs Player) content. And now we will show a video of the new fantasy action RPG! The above description contains some spoilers for the game. The legendary hero finally released from the dark prison, the legendary hero who was born from the hearts of the people received his name. He sets out on a journey to obtain the power to end the dark rule of tyranny. The epic fantasy action RPG will be released in the 2nd half of 2019. As the game is just now in the beta testing phase, you can register here to participate in the beta testing

What's new:

THE NEW FANTASY ACTION RPG. Rise, Tarnished, and be guided by grace to brandish the power of the Elden Ring and become an Elden Lord in the Lands Between. • A Vast World Full of Excitement A vast world where open fields with a variety of

situations and huge dungeons with complex and three-dimensional designs are seamlessly connected. As you explore, the joy of discovering unknown and overwhelming threats await you, leading to a high sense of accomplishment. • **Create your Own Character** In addition to customizing the appearance of your character, you can freely combine the weapons, armor, and magic that you equip.
