According to EA, the new version of the game will “imagine you not just as a player – you’re now a part of the team.” “If you can move on the pitch, the AI will be able to move with you,” said Creative Director David Rutter. “It is vital to our vision to make the game as true to the sport as possible and there will be no ‘stiff’ players like in previous iterations.” “We are focused on adding ‘flexibility and fluidity’ to the player AI in both movement and decision-making,” he continued. “The net result is that you’ll be able to make a move that on the surface seems like the right move, but just because you’ve selected it in the heat of the moment, the AI will see it for what it is, and will be able to adapt its play in response.” Part of the motivation behind this new technology in the series is because the player models in previous iterations have not been very realistic in terms of movement and speed, making players hard to control and maneuverable. “In FIFA 20, players were large, the ball was small, and the changes they made in their movements and ball control meant that they were able to do things they shouldn’t have been able to do,” explained Rutter. Rutter also explained that the player models in previous iterations had been relatively static, but “we wanted to make the players more dynamic and responsive, so we embarked on a journey to make players appear more natural on the pitch.” “The technology behind the new player model has been developed, implemented and tested extensively by former tennis player turned FIFA technical director Dave Rutter and his team,” said Pete Rizzo, Director of Digital Development at Electronic Arts. “The result is real-world data that we were able to build upon, giving us the opportunity to make an even better game.” The results of this new player model seem to be promising, with FIFA Ultimate Team Manager Christian Thurau saying in an interview: “In Fifa 22 Serial Key, we are seeing our players play in more realistic ways, but this has no influence on their gameplay and there are no artificial enhancements to skill. The fans will definitely get a different kind of experience with the improved intelligence of the

EA SPORTS FIFA is the leading videogame franchise in sports entertainment. Players take control of a team of real-world players including legends like Pele, George Best, Roberto Baggio, Michael Ballack, Neymar, Eric Cantona and David Beckham. Players compete in officially licensed real-world leagues and tournaments around the world, including the UEFA Champions League, UEFA Europa League, CONMEBOL Libertadores, FA Cup and Bundesliga. FIFA 19 brought more realism to the soccer games with Deep Reflection Live, an all-new in-game camera system that brings the game's setting and world around the player to life, using groundbreaking VR and AR technology. In FIFA 22, EA SPORTS introduces new gameplay features with Control Precision Passing and Attack Intelligence, a radical new pitch surface, the All-Star team, the most influential clubs on and off the pitch, and a revised training system that now measures pitch-specific skills. All new FIFA Ultimate Team brings the biggest in-game season ever with Rivals and Skills and more ways to play. FIFA 21 introduced new fan-favorite game modes, including "FIFA Ultimate Team," "FIFA Celebration," "FIFA FOOTBALL," "The Journey," and "FIFA FORMAT™." FIFA 22 builds on that foundation with more dynamic dribbles, further enhancements to free kicks, goal celebrations, and a brand-new off-ball AI that keeps a look-out for open teammates. The biggest game mode in FIFA history returns—now with career and management modes. FIFA 22 introduces a brand-new career mode, where players can take a variety of development roles in multiple countries and leading clubs, from being a young striker to a coach. In the debut of the new career mode, players can even take on the role of a manager at a large club and guide their team's youth academy. FIFA 22 also features "FIFA FORMAT™," offering a new career mode, along with new gameplay

modes such as “FIFA FORMAT™,” “The Journey” and “FIFA FOOTBALL.” “Bigger and better” Off-Pitch Features Bringing more unpredictability to every game, FIFA 22 introduces a new Pitch Surface technology that features more realistic lighting, and an all-new pitch-specific hologram that creates an bc9d6d6daa

All-new camera system to bring the game to life like never before. Unrivaled gameplay innovation with the All New Player Intelligence engine. Unprecedented control over the elements of gameplay with the All New Player Intelligence technology. New FIFA World Order: Climatic Action In the secluded offices of the International Football Association Board (IFAB), the world governing body of FIFA, secret meetings take place with FIFA's secret partners – football's dark forces. With a few well-placed votes, influential secret agents gain the upper hand and FIFA World Order is declared. FIFA is lost to the rest of the football world. All that is left to do is watch FIFA reign in a new world order. While FIFA is your game, FIFA World Order is your story. Your game is FIFA. Your story is FIFA World Order. FIFA World Order is a dramatic new narrative, story mode that will take players on a dark and dramatic journey through the darkest eras in football history and into the future. The game begins in ancient Egypt, when players will forge their first teams and take possession of legendary footballs. From there players will descend into the depths of the Roman Empire, where the grimmest secrets of the Roman Coliseum will be uncovered, to the Victorian-Era of the British Empire, where footballers will play an epic, historical struggle for control of their sport on the football fields of the world. Players will fight for their very existence in the nuclear-era of the Cold War. During this era of upheaval, three rising footballing powers will take shape that are poised to go to war over the future of FIFA and football at large. Be there as the seeds of FIFA
