Visual Novel Sisters is a text-visual story based on a Japanese tale of two sisters.SISTERSOnce upon a time, two sisters lived in the same area. The eldest was a beautiful and kind girl, and the youngest was very angry.TRAVEL IN THE MOUNTAINSTwo sisters decided to go to the mountains to collect acorns.STRANGE SURPRISEDid their plan go terribly wrong. In this story you will find out what happened next.GAME FEATURES: 2 girl characters Spectacular mountainous spaces Ability to move in space using controls Narrative with an unusual ending 10 thematic musical compositions When you take on an adventure, all you really care about is getting where you need to go. If the road is a rocky one, so be it, but if it's smooth, you're more than happy to keep rolling. There's a lot to enjoy in life, like discovering good tunes on the radio and slamming down some delicious coffee, but when it's time to down a little backstory and figure out how the world works, we don't mind a bit. And that's why anime's story-heavy medium is, in many ways, so beloved. We don't need exposition or trivia, as that's not the point of interactive fiction games, and narrative isn't why we play them. The point is to tell stories and act in them. Visual Novel Sisters, a brand new game from the developer Azelf Studio, is just as much a narrative game as you would expect it to be, but with a few extra quirks. It's easy to see why VNS is a text-only game. The story begins when two girls set out to collect acorns in the mountains, and it's up to you to help one of them collect her before they can meet an unhappy ending. The adventure sets out as you go through a series of rooms

Men's Adventure Games are set in vibrant, multi-storied cities that are completely land based. The stories are often myth-like or fantastical, but often deal with more realistic challenges the men must face. The plots hinge on the actions of the players in the City rather than on turn based battles, as in War, so every class has the chance to shine. The danger in city based adventures is that the people are not accustomed to adventuring on foot, and there are a wide variety of hazards that can be found in a city, including the sinister forces that lurk in the shadows. Nearly 20 years ago at a small gaming convention in Texas named Dragon's Lair, one of the biggest influences on the growth of Men's Adventure Games, Eric Flint, attended a seminar about Men's Adventure games led by a veteran game designer, Jeff Tidball. The seminar was almost immediately moved to a very dark, anonymous space that flew by some of the attendees headfirst and a founding mother of the Men's Adventure Game genre was born. In the years since, this genre has continued to flourish with a number of amazing games, some of which even come directly from the writers of these titles. Follow the story of Matt Stone as he is forced to navigate a dangerous city in search of his wife and the two mysterious artifacts that are said to be capable of changing the face of the world. You will need to be adept at playing every class in the game (ie, ALL classes should be well-versed in a battlemage, thief, paladin, etc), as this means the number of characters you will be required to play is staggering. *NOTE! The Men's Adventure Games System will never be compatible with the Advanced Dungeons & Dragons game (3.x/3.5/4.0) game system. The Men's Adventure Games System (which has now been merged into the "Call of Cthulhu" game system) has no official connection with the Advanced Dungeons & Dragons game, and many people will say these games are incompatible with the Advanced Dungeons & Dragons game, but the game can be played using the Advanced Dungeons & Dragons game rules, which means most monsters and spells are already there. WARNING: This product contains mature subject matter and profanity. It is intended for adult audiences only. Product Description: The Men's Adventure Games System is a multi-classed, gear-limited series of role playing games that
