

If you love all things Halloween, then you are in for a treat! This Halloween Edition includes 2 distinct games. In the first game you will be confronted with constant waves of monstrosities slithering up and down the stairs. You must use your wits and keen eye sight to outsmart them! In the second game, you are put to the test with milder dangers to fight off. You can play either game in their own ways. You can use your weapons and simply shoot, or use any of the many game options to cause extra damage to your foes. Be careful though! Some of the monsters have impressive power. The main difference between the two games is the difficulty. In the first game, the difficulty is on minimum, whereas in the second game, the difficulty has been increased. You will fight with a new weapon, a weapon that can make you earn more coins. Also, you will use many blood effects to mimic real life blood. Key Features: Five distinct difficulty levels, you are free to choose your own level! Unlock new weapons with more powerful effects and varied impacts Collect coins from defeated enemies to earn bonuses Multiple endings to the game depending on your play style Local Multiplayer for up to four players. "If you have 3 friends with you, then you will want to buy the 3-Player version. I bought the special edition, which allows you to play with 4 players. I find this is the ultimate combo, especially for those with a larger play area.

7 comments : I like this game, I have yet to play it b/c I'm too scared to take kids 2/3 maybe, but there is nothing for me to be scared of there with. One of my buddies actually works at one of the biggest video game stores in town and he said that 1 out of every 4 times you walk in they have this game. Might be worth renting out one day. Nice job with the graphics. Apparently, if you do this, our email will get sent to us. We are geeks. Tell the lazy shits we said hi. Like you know....if you have 3 friends with you, then you'll want to buy the 3-Player version. There are ways you can switch up how many people can play at once. I had a co-worker that works at a tv shop and they had this game. LOL. It's actually really good and not that bad looking. But I paid \$60 for it and it's only supposed to be \$20. I think this was a deal. I'll have to get a 4-player around here. I'm always trying to figure out some way to get my friends to do stuff for me. yeah, didn't you just see the youtube video? surely the game is "sold out", even in s. California,
