REVIEW: LipstickBy NARS Get ready for a whole new definition of beauty with Lipstick by NARS. The new matte lipstick features beautiful, almost liquid-like color with a super-plush formula. It is available in 12 exciting new shades for the lips in the fantastic new Lipstick by NARS Lipstick range. I love this lipstick! It's so creamy and soft, has a gorgeous, very wearable color, and it's totally a matte, just like the NARS Lipstick available in the markets - a matte lipstick gives the perfect amount of pigment and coverage without the sticky and thin formula that you get with a lip gloss. The color range is rich and intense and I like that it's not a "flattering" selection. I don't like making a statement by wearing an "ugly" shade - it just makes me look like a clown. I like that this lipstick gives me a warm, coppery, olive brown color instead. I think the color will make a statement without looking overdone. In addition, the texture is super-duper creamy and I don't need to put on a topcoat, so this color stays pretty on my lips all day long. The lipstick can only be used once and is long-lasting. I'm even wearing it a day after my last NARS Lipstick application. This lip color doesn't feel sticky or unpleasant and it's totally undetectable when you eat. It doesn't also dry out my lips! NARS Lipstick by Mars offers a product for every woman, which is why I love it! This new Lipstick by NARS collection has a lot of fabulous shades for every day-wear.
